Certified Refurbished Lantech® Q-300 Stretch Wrapper

The Q-300 semi-automatic stretch wrapper is one of Best Packaging's top selling refurbished machines — for a good reason. It is easy to use. It's reliable. It will consistently deliver high performance for years to come.

The Q300's intuitive controls require little to no training. Wrapping begins with the touch of a button, then the operator is free to prepare the next load as the machine completes its cycle. With Best Packaging, you can also have manufacturer-built upgrades professionally installed to further automate the process.

This semi-automatic machine operates at up to 25-35 loads per hour. The variable wrap force is controlled electronically. A digital readout ensures replicable success every time.

Standard Features:

- One way wrap
- Wrap cycle pause
- Microcontroller
- Variable power-roller pre-stretch system (200% standard)

Certified Refurbished Lantech® Q-300 Stretch Wrapper

The detail of the product(s), descriptions or specifications (for example weight, color, size, etc.) are only approximate values based upon a "standard model" of the representative product(s)/feature(s). There may be slight variations in the actual product design, dimensions, and functionality as compared to the information shown on our website and/or any supplementary product documentation, including but not limited to product brochures and spec sheets.

BEST PACKAGING®

WHY WE'RE THE BEST

Since 1997, we have been consulting, designing and implementing packaging solutions to offer the best for your operations. We represent a variety of equipment manufacturers, so as to ensure we're matching the right solution for your packaging needs. We only align ourselves with quality brands to make sure we are delivering the best value. It is our goal to provide the highest quality service to make your job easier and more productive.

Over 150 years of industrial experience, collectively.

We represent multiple brands and our analysis is unbiased. We can match the best systems with your needs based on the versatility of the job.

With preventative maintenance, operator training, and 24/7 support, we're with you every step of the way!

Steve Kudia, Owner of Best Packaging, serves on the ASTM committee. As part of a prestigious worldwide network of technical experts, he aims to make sure processes stay efficient by monitoring trends and educating customers on how they can improve their performance.
